Summary of Qualifications

Rudimentary understanding of Computer Science through coursework taken in High School and College.

Desire to learn and understand the how of why technology works.

Inclined to succeed in and work given to me.

Programming languages used: Python, Java.

Education

Highschool Diploma; GPA 3.0

Lincoln High School, Seattle WA

Skills

Python, Java; strong work ethic as shown in other experience.

Projects

Blackjack Game

Built a Blackjack game with java from scratch, that works as intended with Hit, Stand, Double, and Split functions integrated.

Other Experience

Worked as a Home depot employee over the 2023 summer, in which I picked up as many extra shifts as possible and took other employees shifts for them as they needed.
